

PARTS & SERVICE SUPPORT

**YOU'VE GOT A JOB TO GET DONE.
WE'RE HERE TO HELP, SINCE 1967.**

The team here at McCann believes you deserve a trusted supplier who cares about your long-term success as much as the success of the project at hand.

We will be courteous and knowledgeable in our interactions with you and your team. We will seek the best equipment, construction supply, and service and parts solution that fits your need, and our products and services will be industry leading and dependable.

When something goes wrong, we will jump on it with the urgency you expect. We will communicate with you along the way.

*If you already do business with us...Thank you.
If not, we would like an opportunity to earn your business.*

Here to help,

Jim McCann
CEO, McCann Industries

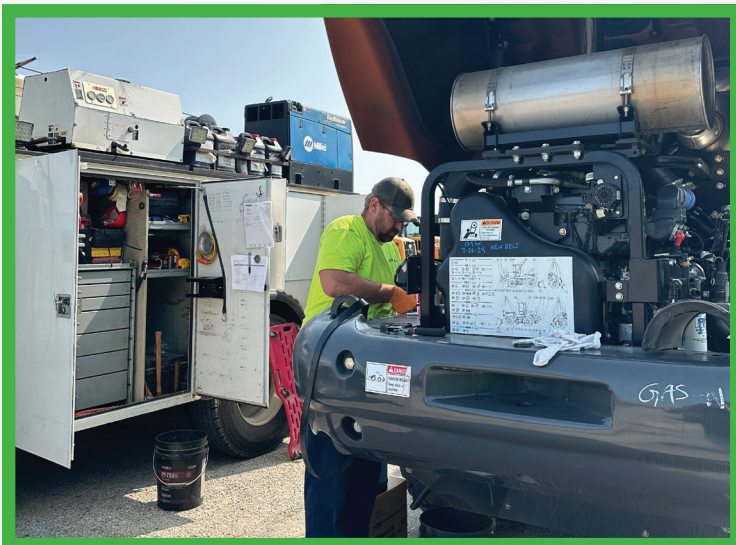

PARTS AND SERVICE

The latest repair and diagnostic equipment, factory-trained technicians

- Shop services
- On-site services 24/7
- Light equipment repair
- Multimillion dollar parts inventory

Our Technicians Are Factory Trained

McCann has extensive requirements to certify technicians and assure that they are properly equipped. Our technicians attend classes at our OEM's training center at multiple times a year to learn about new diagnostic and service techniques and any changes in equipment requirements.

Shops with the Latest Technology

Our facilities feature state-of-the-art electronic service diagnostic tools that provide accurate machine evaluations to pinpoint problems quickly, whether they are with engines, drive trains, or hydraulic systems.

Fast Parts Availability

We have a multimillion dollar parts inventory to deliver your components as quickly as possible. Our parts and service managers average more than ten years of experience and are ready to find the parts you need.

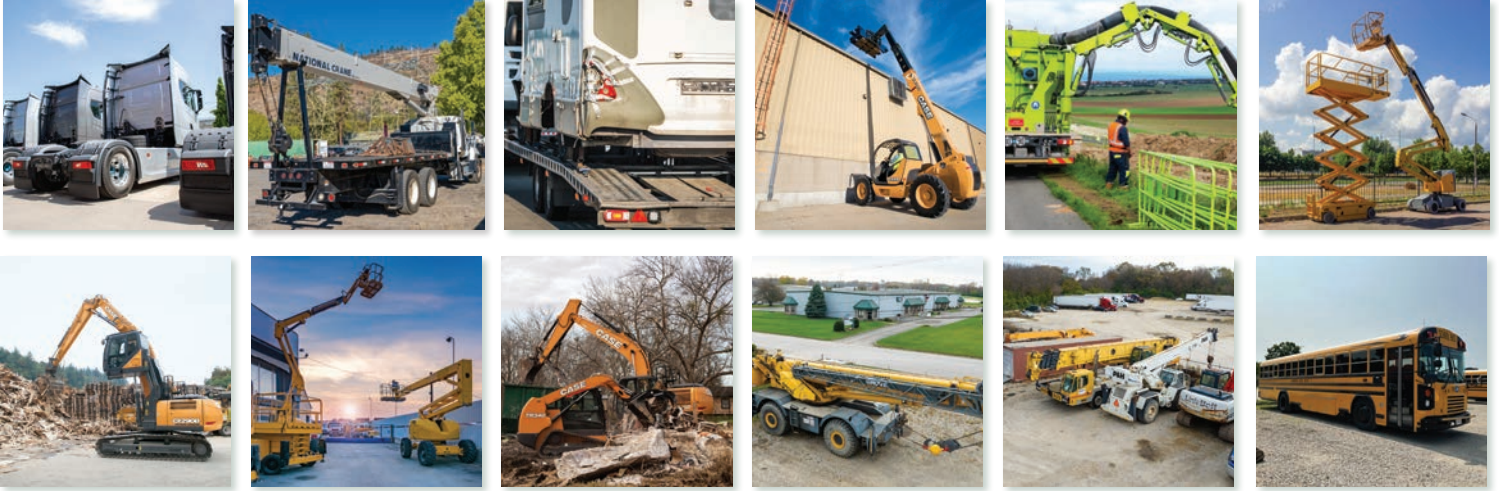

24 Hour On-Site Emergency Service

We understand that you might have a problem on a weekend or evening, and our technicians are available whenever you need us. With ten locations across Illinois, Indiana, and Michigan, McCann technicians can quickly respond to your emergency and reduce costly downtime.

Product Support Sales Representatives

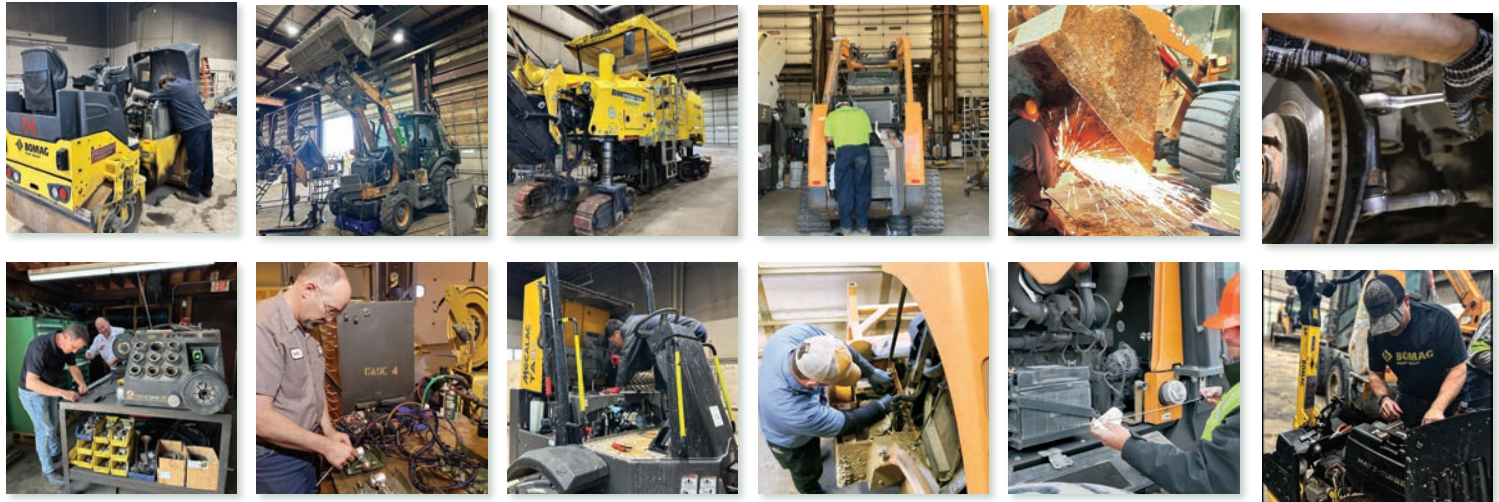

Our PSSRs are your resource at McCann to answer questions about parts, service, and extended warranties. They have the knowledge and experience to help you complete any job efficiently and to maximize your productivity.

- Battery services
- Brakes repair
- Suspension system repair
- AC and heating
- Transmission, clutch, and differential repairs
- Coolant hoses leak repairs
- Engine repairs
- Trailer door re hinge and repair
- Freeze ups
- Starter repairs
- Refueling
- Air lines leak repairs
- Water pump repairs
- Tire change, repairs, and replacements
- Hydraulic system repairs
- Welding, and much more

WE MAKE HYDRAULIC HOSES, WHILE YOU WAIT!

TECHNOLOGY CENTER

Our telematics specialist will help you understand what is available through your machines' telematics systems, to maximize productivity on all your equipment. Telematics also provides our technicians with key information to troubleshoot issues before they even see your machine, minimizing service downtime.

myCASE

myCASEConstruction is a telematics platform and mobile app that gives contractors real-time access to machine health, fleet performance and jobsite activity. With centralized data, maintenance alerts and reporting tools, it helps improve uptime, increase efficiency and support smarter business decisions.

Takeuchi Fleet Management (TFM)

TFM allows you to monitor the health of your machine and minimize costly repairs with real time information. It includes remote diagnostics and can be used to schedule maintenance based on current machine hours and operating data.

Kobelco Monitoring Excavation System (KOMEXS)

KOMEXS is a web based program that helps you track fuel consumption, hours worked, machine load, digging hours, idle time, break times, fault codes, and maintenance and service needs. The online monitoring reports are accessible from anywhere for both you and McCann.

BOMAG Fleet Management

BOMAG Fleet Management gives contractors real-time visibility into machine performance, location and maintenance needs through one easy-to-use platform. With proactive diagnostics, geofencing and remote monitoring, it helps reduce downtime, improve uptime and optimize fleet efficiency.

Hoses, Filters, Tracks, Tires, Attachments, and Parts

Wide variety of hoses from Parker

- Braided
 - Spiral
 - Multipurpose
 - Push-Lok®
 - Transportation
 - Refrigerant
 - Suction and return
 - And more
- We stock hoses ranging in size from -4 to -16 (1/4" to 1") that are compatible with permanent crimp style (Parkrimp) fittings. Our team will help you find the right option for your needs.

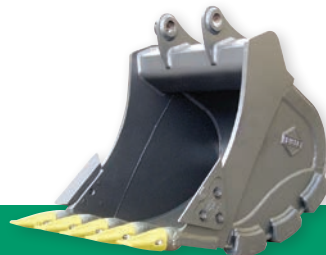

Rubber Tracks Add Traction and Flotation

- Smooth—Up to 100% less vibration and reduced noise level
- Strong—Less risk of de-tracking
- Swift—Smoother ride, even at maximum speed
- Unique tread patterns—Minimal soil disturbance, maximum traction
- Complete range available to fit most machines
- Several brands of tracks available

Filters

Air filters, fuel filters, and water separators for every make and model of equipment that we sell and most that we don't sell, too.

Equipment Buckets

Choose from a wide variety of buckets for your excavator, skid steers, CTLs, backhoe loaders, and wheel loaders.

Light Equipment Parts

We provide OEM parts for smaller equipment and tools from Stihl, Wacker Neuson, Husqvarna, Honda, DeWalt, and more.

Ground Engaging Tools and Attachments

- Adapters
- Actuators
- Backhoe teeth
- Base plates
- Clamshell teeth
