CATALOG

**YOU'VE GOT A JOB TO GET DONE.
WE'RE HERE TO HELP, SINCE 1967.**

The team here at McCann believes you deserve a trusted supplier who cares about your long-term success as much as the success of the project at hand.

We will be courteous and knowledgeable in our interactions with you and your team. We will seek the best equipment, construction supply, and service and parts solution that fits your need, and our products and services will be industry leading and dependable.

When something goes wrong, we will jump on it with the urgency you expect. We will communicate with you along the way.

*If you already do business with us...Thank you.
If not, we would like an opportunity to earn your business.*

Here to help,

Jim McCann
CEO, McCann Industries

BOMAG ECONOMIZER

TECHNOLOGY THAT MAKES THE COMPACTION PROCESS FASTER AND EASIER.

BOMAG ECONOMIZER continuously measures soil compaction quality, identifying optimal and weak areas. Operators can monitor progress and know where action is needed.

With BOMAG ECONOMIZER, the number of passes can be reduced by up to 25%. The work effort required for soil compaction remains low. The productivity of the entire construction site is in no way jeopardised.

BOMAP

COMPACTION CONTROL: DIGITAL, TRANSPARENT AND IN REAL TIME.

With BOMAP, monitor real-time soil and asphalt compaction results across all manufacturers. The assistance system facilitates easy checking and documentation of compaction levels on-site. Roller drivers can instantly identify areas optimally compacted or needing further passes.

The app works without any additional special hardware. BOMAP utilizes the device's GPS to locate construction machines on sites instantly. The app is ready to use upon installation and can document compaction results without additional driver settings, simplifying surface compaction control (CCC).

BUCHER *Bucher Municipal - Endless Sweeping Solutions*

municipal

We offer Bucher Municipal mechanical broom sweepers, regenerative air sweepers, and full vacuum models for city streets, parking lots, pedestrian and shopping areas, and more!

Reliable solutions for keeping highways clean and clear

With ever increasing demands on our road infrastructure and varying climate conditions it is essential to keep our highways and roads clean and clear. Bucher Municipal offer a range of sweepers for year round operation keeping us moving safely and efficiently.

Construction sites require sweepers that can achieve results in a variety of heavy material such as asphalt, mud and construction debris. Our sweepers feature a robust components as standard providing excellent corrosion resistance and reduce wear even in the harshest of environments.

Warranty**

V65 - Pure Vacuum

- Smart machine technology to simplify operations and streamline service.
- Centralized sealed systems locker.
- "Unhanded" sweep gear components.
- Toploading catch basin cleaner that will permit a work coverage range of 270° and safely shields the operator from oncoming traffic.
- Energy-efficient fan system, direct drive with fluid coupler & step-up gear box transmission with full 5-year warranty, no belts to adjust.
- 12' sweep path with "straight inlet" vacuum.
- Exclusive "one-pass" sweeping system.
- Stainless Steel Construction - 8.5yd³ usable hopper, 410 gallon water tank, fan and hopper filtration screens.

R65 - Regenerative Air

- In-cab controls incorporate audible and visual indicators.
- Set and forget pick-up head.
- "Unhanded" sweep gear components.
- Centralized key systems.
- Energy-efficient fan system, direct heavy duty coupled motor, no belts to adjust.
- 12' sweep path with aggressive "unhanded" 44" leading arm digger-type gutter brooms which provide the ability to sweep/scrub in front of 93" pick-up head.
- Stainless Steel Construction - 8.5yd³ usable hopper, dust separator, fan, and hopper filtration screens.

E35 - Mechanical

- Proven, customer-inspired single engine design.
- No computers means less complexity with troubleshooting.
- Choice of dirt shoes - industry preferred "T" plate or easily adaptable brush dirt shoes.
- Systems control locker.
- 12' sweep path with an 18'6" turning radius.
- Equal width pick-up broom and 12 flight elevator delivering faster sweeping and loading.
- Aggressive "unhanded" 44" leading arm digger type gutter brooms.
- Variable dump height up to 12'6".
- Stainless steel construction - 4.5yd³ usable hopper and 4-piece elevator floor. Load-sensing hydraulic system
