New OSHA Regulations Require Controls on Exposure to Silica

Effective June 23, 2017 for the Construction Industry

See OSHA's Table 1 to make sure you're compliant
<https://www.osha.gov/silica/SilicaConstructionRegText.pdf>

We stock the products you need to limit exposure to silica. Call McCann today for more information on these requirements.

- **Exposure limit**—25 micrograms per cubic meter of air, averaged over an 8-hour shift
- **Exposure activities**—Operating walk-behind saws, masonry saws, dowel drilling, handheld drills, jackhammers, drivable milling machines, heavy equipment and utility vehicles
