

RENTAL GUIDE

SERVING THE CONSTRUCTOR SINCE 1967

**YOU'VE GOT A JOB TO GET DONE.
WE'RE HERE TO HELP.**

The team here at McCann believes you deserve a trusted supplier who cares about your long-term success as much as the success of the project at hand.

We will be courteous and knowledgeable in our interactions with you and your team. Our equipment will be dependable, clean and well-maintained. When something goes down, we will jump on it with the urgency you expect. We will communicate with you along the way. If you have an interest in owning the equipment, we will work with you to find a solution. We are also here to help with the construction materials and tools you need day to day.

*If you already do business with us... Thank you.
If not, we would like an opportunity to earn your business.*

Here to help,

A handwritten signature in black ink, appearing to read 'Jim McCann', with a stylized, looping flourish at the end.

Jim McCann
CEO, McCann Industries

How to Clean Streets Faster and Better

BUCHER
 municipal

Bucher V20 Street Sweeper

- **Low water usage**—A water recirculation system & 112 gal. tank
- **A clean sweep in any direction**—With articulated steering
- **Pick up large debris**—With its floating suction intake

Bucher V65 Street Sweeper

- **Run longer**—410 Gallon water tank and 50 gallon auxiliary fuel tank
- **Reduce water use by 20%**—Uses standard yellow mist atomizing jets
- **Keep maintenance costs low**—It's corrosion resistant

SiteControl

PRECISION CONSTRUCTION

Machine control (aka grade control) can transform your earthmoving business in the field and on the bottom line. Move dirt once. Reduce rework. Increase productivity. Get the job done with less wear and tear on your equipment. Control job costs and bid new work more aggressively.

Machine control matched with CASE equipment has the ability to significantly increase the amount of work you do, finish it with greater quality and efficiency, and lower the operating costs of your business while increasing profitability. From simple trenching to complex contouring and grading, CASE and your local CASE SiteControl-certified dealer have the solutions to accomplish all of this and more.

MOVE THE EARTH. PRECISELY.

Our precision focus at CASE is on scalability and delivering solutions that make the most sense for your business. Practical, intuitive and capable of driving ROI from the day you deploy the solution — CASE has what you need for dozers, graders, excavators, compact equipment and more!

CASE and its network of SiteControl-certified dealers provide hardware, software and construction tools for a broad range of products and applications. From factory-fit dozer systems to semi-automatic 3D excavator solutions, we match your machine with the technology best suited for the work you do — and the work you plan to win.

EXCAVATOR SOLUTIONS

CONCRETE & MASONRY EQUIPMENT

Steel-Ply is the most widely accepted, pre-engineered, modular formwork system in use today. It is designed for maximum versatility and can be used to form virtually any concrete structure.

- Clean, well maintained forming panels, fillers and accessories
- 1000 psf allowable pressure
- Designed to form both straight and radius walls
- System may be handset or assembled into gangs
- Most popular concrete forming system in the USA
- Layout & Estimating available

*Must have active open credit account and insurance to rent out forms.

CONCRETE COLOR

QuickColor Granular Bagging System

The QuickColor Granular Bagging System by Solomon Colors lets suppliers create thousands of colors using ColorFlo Granular pigments from four base colors. It features a touch screen, efficient design, minimal dusting, and compact size. It batches pigment into repulpable bags or buckets with high accuracy.

Solomon Brickform Powdered Integral Color is a high-quality, pre-measured blend of pure iron oxide pigments, ensuring consistent and vibrant decorative concrete coloring.

- Iron Oxide Pigment: Provides uniform color dispersion throughout the mix, ensuring reliable and vivid results.
- Pre-Measured 10lb Bag: Packaged in durable plastic bags for convenient use at the ready-mix batch plant or on the job site.
- Wide Area Coverage: Each 10lb bag colors up to 2 cubic yards of concrete, suitable for both small and large-scale projects.
- ASTM C979 Compliant: Meets the "Pigments for Integrally Colored Concrete" standard, ensuring quality and performance for architectural concrete.
- Granular Solid State: Designed for easy mixing and uniform batching, curing, and sealing as part of Brickform's System Approach.

THOUSANDS OF COLORS CAN BE CREATED IN COLORFLO GRANULAR PIGMENT FROM ONLY FOUR PRIMARY COLORS.

Rental Guidelines

- A McCann Industries Rental Agreement must be signed, and an account must be established prior to pick up or delivery.
- Rates are based on the length of the rental period, with an 8 hour day, 40 hour week, and 160 hour 4-week period. Additional hours will be billed at overtime rates. Rates and equipment are subject to change without notice. Local and state taxes may apply.
- Rental machines must be returned with a full tank of fuel, or additional fuel charges will apply.
- Lessee is responsible for daily maintenance, excessive or unusual wear and tear, and any tire or track repairs.
- Physical damage and liability insurance is required from the lessee for the equipment to protect against damage, theft or vandalism. A certificate of insurance is required prior to rental.
- Lessee will return equipment in a reasonably clean condition. Lessee will be billed for excessive clean up at posted shop rates.
- Delivery is additional to the rental rate and is quoted FOB McCann Industries. State and local permit costs are additional when required.

Compiling and verifying a comprehensive rental guide is a complex task, involving a vast number of product numbers, dimensions, and other details including pricing. Achieving absolute perfection in this process is not commercially feasible. Although we have made every effort to include the most up-to-date lists, dimensions, descriptions, designs and pricing in this guide, we cannot guarantee their accuracy. If any errors or misprints have eluded our checkers and printers, we cannot be held responsible for them, but we will strive to correct them.

All the information presented in this guide regarding the specification's equipment, tools, or machines is derived from the manufacturers' compiled data, provided for the convenience of the buyer. We do not assume responsibility for the accuracy of this information. Our rental fleet is constantly evolving, and therefore, designs, specifications, accessories and pricing are subject to change without prior notice.

Please note that images included in this guide may be modified. All references made in this guide are solely for descriptive purposes and should not be considered as representations of any kind.
